Termsheet

Breckenridge Pharmaceutical has entered into a multi-product agreement with MSN Laboratories under which Breckenridge and MSN expect to commercialize several new ANDAs.

Under the terms of the agreement, MSN will develop, manufacture, and supply the products exclusively to Breckenridge for the U.S. market, and Breckenridge will market and distribute the products under its label.

Breckenridge and MSN have agreed to develop an oral antibiotic with current U.S. brand sales of \$644 Million USD, and a cardiovascular drug with current U.S. generic sales of \$35 Million USD.

This agreement contemplates the filing of multiple first-to-file Paragraph IV ANDAs.

Prior to entering into the new agreement, Breckenridge and MSN were already engaged in the collaborative development and prosecution of two first-to-file Paragraph IV ANDAs that have been submitted to and are pending with FDA.

Prior to entering into the new agreement, Breckenridge and MSN were already engaged in the collaborative development and prosecution of two first-to-file Paragraph IV ANDAs that have been submitted to and are pending with FDA. The collaborative effort between Breckenridge and MSN reflects Breckenridge's larger focus on high-value, niche opportunities. To date through 2014, Breckenridge has filed more than twenty-three (23) Paragraph IV patent challenges and intends to continue that trend in the next several years, focusing on niche and first-to-file Paragraph IV opportunities with certain barriers to entry.
